

if the 3.5 million truck drivers in the US

# WENT GREEN

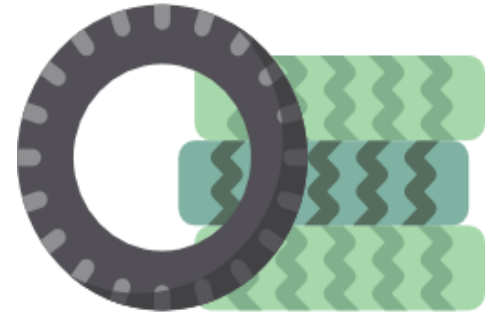

**1.4 BILLION\***

sheets of paper would be prevented from entering landfills when truckers switched from paper to electronic logging

*\*that's over 168 thousand trees!*

**63 MILLION**

tires would be repurposed when truckers recycled them instead of tossing them out

**OVER 1 BILLION**

miles worth of gas would be saved when truck drivers reduce the idling time of their trucks by two minutes each day for a year

**80.5 MILLION**

pounds of trash per year would be prevented from going to landfills when truckers ditch paper cups for reusable coffee mugs
